Confluence (Johnson, Williams)

- A wiki is a collaborative editing tool; multiple users can access an online page and edit the page online.
- Good for use in group projects and similar work where multiple people are contributing to a common written document.
- Question: Will Confluence be integrated with ELS? Answer: Not the current system; but integration will be explored in the replacement system.

Status Report (Johnson)

- ELS
 - ELS is now up the most recent release of the Vista product line
 - We are seeing some new issues (certificate issues, HTML editor) but some old issues are resolved.
- CMS Review
 - Product list is now ANGEL, Blackboard 9, Moodle, and Sakai
 - Focus groups in December were very successful
 - Preparing for second round focus groups in late January/early February
 - Target date for recommendation still end of March

Program Reports

- Tabled for next month: everyone buried in beginning of term issues

Next Meeting: 12 February 2009
